📍 Hyderabad

## SUMMARY

I am a Computer Science Undergraduate currently trying to land an internship. I am a computer science enthusiast with a strong foundation in programming logic. I love to write blogs and make video tutorials that help other students with their academics.

## EXPERIENCE

### Software Developer

#### GGK Technologies

📅 04/2018 - 12/2018 📍 Hyderabad, India

- I was a part of the web development & services team. My technologies Stack primarily included C# .Net, HTML, CSS & Bootstrap.
- During my tenure at GGK, I got to learn about different stages of SDLC, how agile works and a lot of other new things.

---

### Software Intern

#### Delta Eng. Pvt Ltd.

📅 05/2017 - 07/2017 📍 Hyderabad

#### Company Description

- I developed an end-to-end ticketing web app. Users can create accounts and enroll for various services using this web app. This web app keeps track about the availability of different services and notifies users upon successful enrollment.
- As a part of this project, I wrote SQL scripts to create database tables to support my feature. Created API's necessary, learnt how to establish connection to database, learnt about different ways of authentication/authorization and integrating 3rd party services to web apps to send notifications.

## EDUCATION

### Computer Science

#### Stanley College Of Engineering & Technology For Women

📅 07/2018 - Ongoing

- Currently completing courses in computer science.

## SKILLS

### Coding

Java

C/C++

Javascript

React JS

C# .Net

Bootstrap
