Summary

I am a Computer Science Undergraduate currently trying to land an internship. I am a computer science enthusiast with a strong foundation in programming logic. I love to write blogs and make video tutorials that help other students with their academics.

Education

Stanley College Of Engineering & Technology For Women

Bachelor Of Engineering (B.E) • Hyderabad

Currently completing courses in computer science

Skills

- HTML5
- JavaScript
- C/C++
- C#
- CSS3
- ReactJS
- Core Java

Experience

Delta Eng. Pvt. Ltd

Software Intern • Hyderabad   05/2017 - 07/2017

I developed an end-to-end ticketing web app. Users can create accounts and enroll for various services using this web app. This web app keeps track about the availability of different services and notifiesusers upon successful enrollment.

As a part of this project, I wrote SQL scripts to create database tablesto support my feature. Created API's necessary, learnt how to establish connection to database, learnt about different ways of authentication/authorization and integrating 3rd party services to web app to send notifications.

Guru Gowri Krupa Technologies (GGK)

Software Developer • Hyderabad, Telangana   04/2018 - 12/2018

I was a part of the web development & services team. My technologies Stack primarily included C# .Net, HTML, CSS & Bootstrap.

During my tenure at GGK, I got to learn about different stages of SDLC, how agile works and a lot of other new things.
